Master Plan for The Pointes' Park & Open Space

Visit us this Wednesday at the Riverfest Block Party at the MCC to see the completed draft Master Plan for The Pointes! We're excited to share the plan and ask for your thoughts on which amenities at the park space should happen first.

The Block Party happens this Thursday, July 14 from 11 a.m. to 1 p.m. at the Monticello Community Center. The Block Party offers free food, fun and now a chance to see how The Pointes will look!

Looking to the future, it's anticipated that the Master Plan will be brought to a joint workshop of the Planning Commission, Park Arts & Recreation Commission, and City Council on August 8, 2022, followed by formal Council review and consideration for adoption in September.

Compass Committee

The Compass Committee met on June 15, 2022 to review the draft Master Plan for the Pointes at Cedar. The group reviewed the overall draft plan and individual "vignettes" with images and concept drawings for small spaces within the planned park area. The group discussed how ideas from prior Compass Committee meetings and the public engagement have been incorporated into the plan itself.

The Master Plan reflects the character themes for each of the three biomes within The Pointes at Cedar: Populus, Tilia, and Quercus. The Compass Committee had the opportunity to provide additional feedback on how to strengthen the plan's relationship to those themes, providing additional suggestions for the more detailed project plans.

The Compass Committee is helping to create and guide the public spaces at the center of The Pointes. The Committee is made up of a cross-section of Monticello community members. Their next meeting will occur on August 17, 2022 at 5 p.m.

How Can I Participate?

If you are interested in participating as a volunteer on the Compass Committee, you can also reach out to us at info@ci.monticello.mn.us

Watch for more details on future events on the City's social media and blog!
